8. Atestare sanatate animala

Eu, subsemnatul medic veterinar oficial, certific ca:
Romania este libera de febra aftoasa si pesta bovina.

Animalele provin dintr-o zonă libera de Tuberculoza, Antrax, Febra Vaii de Rift, Pleuropneumonie contagioasă si Cisticercroza

Romania este clasificata conform Deciziei 2007/453/CE ca tara cu risc controlat pentru ESB

9. Atestarea sanatatii publice

Eu, subsemnatul, medic veterinar oficial, certific faptul ca:

9.1 carnea proaspata provine de la taurasi care au fost sacrificati conform preceptelor Seriatului Islamic.(HALAL) si a fost obtinuta, preparata, manipulata si depozitata in conditii de igiena care guverneaza productia, si este controlata asa cum este descris in legislatia Comunitatii Europene si este, astfel, considerata ca fiind corespunzatoare pentru consumul uman

9.2 carnea provine de la animale care au fost supuse inspectiei ante si postmortem efectuata de un medic veterinar oficial intr-un abator autorizat sanitar veterinar si a fost gasita libera de boli infectioase sau contagioase

9.3 carnea provine de la animale cu originea in Romania

9.4 carnea a fost obtinuta si manipulata astfel incat sa se asigure ca nu contine si nu este contaminata cu material cu risc specific asa cum este mentionat de legislatia Comunitatii Europene si recomandat de Codul Terestru pentru Animale al OIE

9.5 carnea si /sau ambalajele sunt marcate cu marca de sanatate /identificare ovala care indica ca au fost obtinute, procesate, depozitate in unitati autorizate sanitar veterinar in conformitate cu legislatia Comunitatii Europene, si indeplinesc inclusiv criteriile microbiologice mentionate de aceasta si sunt bune pentru consum uman

9.6 carnea este supusa monitorizarii pentru controlul reziduurilor in conformitate cu Programul National de Monitorizare a Reziduurilor elaborat in baza legislatiei comunitare si nu contine valori depasite ale acestora

9.7 mijloacele de transport, containerele sau locurile de incarcare indeplinesc conditiile de igiena prevazute de legislatia Uniunii Europene in vigoare

8. Animal health attestation

I, the undersigned official veterinarian, hereby certify that Romania is free of Foot and mouth disease (FMD) and Rinderpest.

The animals are coming from an area free of Tuberculosis, Antrax, Rift Valley Fever, Pleuropneumonia and Cisticercosis

Romania is classified as controlled risk country for BSE according to Decision 2007/453/EC

9. Public health attestation

I, the undersigned official veterinarian, hereby certify that:

9.1 the fresh meat comes from young bulls slaughtered according to Islamic Serial(HALAL) and has been obtained, prepared, handled and stored under the health conditions governing production and control laid down in European Community legislation and it is, therefore, considered as such to be fit for human consumption

9.2 the meat was derived from animals which have been subjected to ante and postmortem inspection under veterinary supervision in an official approved slaughterhouse and found free of infectious or contagious diseases

9.3 meat is derived from animals originating in Romania.

9.4 meat has been obtained and handled in such a way to ensure that does not contain risk material as it is specified under European Community legislation and recommended in the Animal Health Terrestrial Code of OIE

9.5 meat and /or the packaging thereof bears an official oval health/identification mark indicating that it/they has/have been obtained, processed, stored in an officially approved establishment in accordance with the European Community legislation, including compliance with microbiological criteria and is /are fit for human consumption

9.6 meat is subject to monitoring under the National Programme for Residues Control based on European Community legislation and does not contain levels exceeding the permitted limits

9.7 the means of transport or containers and the loading conditions of this consignment meet the conditions laid down in the European Community regulations
